

Dear Holy Family Community,

On the Memorial of St. Francis of Assisi, Fr. Isidro reminded us to listen for God's call. He told the students how St. Francis had a dream and was called to rebuild the church. It wasn't until he recognized this as God's calling that he could stop and see the beauty of God's creation in animals and nature. Fr. Isidro encouraged the community to put down distractions such as video games and social media so that we can turn on our "inner cell phone" that God has given us and walk in His ways.

One of these ways is by showing empathy! On Monday, the students learned about empathy, our October virtue of the month. We are encouraging all students to not only feel what others feel, but to show compassion for students who may be experiencing challenges in school, at home or with friends.

With the cooler weather come some fun, fun-d-raising activities from our Parent Club! These events are exciting ways to get to know more people in the Holy Family community while supporting our school.
